Summary

This proposal seeks to temporarily suspend the operational activities of the Redbelly Community DAO until the broader Redbelly ecosystem reaches a level of maturity where the DAO can efficiently achieve its stated objectives. The proposal is intended to preserve treasury resources, reduce operational overhead, and allow the DAO to resume when there is a stronger foundation for meaningful community-led initiatives.

No existing approved obligations would be affected.

Problem & Rationale

The Constitution states that the Community DAO exists to support the growth, adoption and decentralisation of the Redbelly Community DAO. The proposer believes that the ecosystem is still in an early stage where

Redbelly Network

A temporary suspension would allow the DAO to preserve financial resources and avoid unnecessary expenditure until conditions better support effective community governance and measurable outcomes.

This proposal is intended as a treasury preservation measure rather than a permanent closure.

Objectives

Preserve DAO treasury assets.

Reduce unnecessary operational expenditure.

Complete all currently approved commitments.

Pause funding of new initiatives during the suspension.

Resume DAO operations through a future governance vote when ecosystem readiness improves.

Working Group:

Governance / Treasury

Scope of Work

If approved:

Phase 1 (Immediately)

Complete all approved proposals already under execution.

Complete any outstanding contributor payments already approved.

All proposals approved by Snapshot before the suspension takes effect will continue through completion under their approved terms.

Phase 2

Suspend:

New treasury-funded proposals.

New grant programs.

New bounty programs.

New discretionary treasury spending.

Continue:

Treasury security.

Timeline

Immediately following approval:

Week 1–2

Finalize outstanding obligations.

Week 3

Publish treasury status.

Suspension Period

Treasury remains secured.

No new funded initiatives.

Review

Every six months, the High Council publishes a readiness assessment and recommendation. The decision to continue the suspension or reopen DAO operations is then put to a community vote.

Budget

No new budget requested.

Expected outcome:

Reduction of future operational expenditure.

Preservation of remaining treasury assets.

Strategic Fit

This proposal aligns with:

Responsible treasury management.

Long-term sustainability.

Governance efficiency.

Transparency.

These objectives are consistent with the Constitution's emphasis on responsible treasury management and long-term sustainability.

Oversight & Accountability

Redbelly Network

Treasury Multisig

Reporting:

Treasury dashboard remains public.

Six-month readiness review.

Public governance updates continue.

KPIs

Success will be measured by:

100% completion of existing approved obligations.

No unapproved treasury expenditure during suspension.

Treasury transparency maintained.

Preservation of treasury assets.

Governance review completed every six months.

Risks

Risk

Reduced community activity.

Mitigation

Community discussion channels remain open.

Risk

DAO may be reactivated through governance at any time after the first 6 month period.

OVERVIEW VOTES 14

DAO may be reactivated through governance at any time after the first 6 month period.

Risk

Delayed ecosystem initiatives.

Mitigation

Only treasury-funded initiatives are paused.

Community Involvement

This proposal should be discussed publicly on Discord before Snapshot, in accordance with the DAO governance process.

Redbelly Network

Compliance

The proposal does not request payments to contributors or external organizations.

It does not modify treasury ownership.

It does not affect previously approved commitments.

Any constitutional changes required for implementation should follow the amendment process described in the Constitution.

Decision Requested

Approve the temporary suspension of new treasury-funded activities of the Redbelly Community DAO until a future governance vote determines that the ecosystem has reached sufficient maturity to resume normal DAO operations.

Existing approved commitments would continue to completion.

Treasury assets would remain secured under the existing governance framework.****
