Summary

Following the successful completion of the DAO's first media campaign delivered by FINPR, this proposal seeks approval for a three-month

Redbelly Network

media management.

The objective is to build upon the momentum already generated, maintain consistent market visibility, and create sustained awareness around Redbelly's ecosystem, institutional positioning, and community initiatives.

Problem & Rationale

The DAO's initial media campaign successfully established visibility across crypto media outlets and demonstrated FINPR's ability to deliver agreed promotional activities.

Marketing impact compounds over time. One-off campaigns often generate temporary attention, while consistent visibility creates stronger brand recognition, audience growth, and ecosystem awareness.

Redbelly's ecosystem continues to evolve through institutional adoption initiatives, RWA infrastructure development, strategic partnerships, and community governance growth. Maintaining ongoing media exposure aligns with the DAO's objective of supporting awareness and ecosystem expansion. The proposal therefore seeks to continue the relationship with FINPR through a structured three-month campaign.

Objectives & Strategic Fit

Working Group Alignment

Marketing Working Group

This proposal directly supports the Marketing Pod objective to:

"Drive awareness, growth, and positive brand positioning for the DAO."

DAO Strategic Alignment

The proposal contributes to:

Increased ecosystem awareness

Community growth

Brand visibility

Strategic communications

Long-term adoption and participation

These objectives align with the DAO requirement that initiatives support awareness, adoption, and ecosystem growth.

Oversight & Accountability

Oversight Lead : HC and/or Leaders

Rainbow Magician - LEAD

Responsibilities

Verify PR publication delivery

Verify influencer deliverables

Review monthly reports

Confirm milestone completion before payment release

Publish monthly campaign updates to DAO channels

Reviewer Eligibility

Rainbow Magician currently does not hold any other paid DAO role and therefore complies with the DAO conflict-of-interest and contributor compensation requirements.

Risk & Mitigation

Risk

Mitigation

Delayed publication schedules

Milestone-based payment structure

Lower than expected community growth

Multi-channel campaign diversification

Market-wide decline in engagement

Consistent monthly exposure across multiple media outlets

Incomplete deliverables

Independent review before payment approval

Co-Funding & Leverage

No external co-funding is requested.

The proposal benefits from an already established and successful working relationship with FINPR following completion of a previous DAO campaign.

This reduces onboarding requirements, execution risk, and campaign
