Note for community:

The High Council vote has been reset with a corrected voting method.

The original proposal used the old ranked choice voting, which is designed to elect a single winner. Since we are filling 3 High Council seats, that method could not produce the right outcome, which is why some of you saw rankings behaving unexpectedly.

The new proposal uses Approval voting: tick every candidate you support, and the 3 with the most votes are elected. Simple and transparent.

Apologies for the reset. Please cast your votes again on the new proposal here:
