Context

The current Snapshot voting period for DAO proposals is set to 3 days. This timeframe ensures quick decision-making, but it may also limit participation and discussion among leaders spread across different time zones.

Question

Should we extend the default Snapshot voting period beyond 3 days?

Instructions for Leaders

Please respond with Yes (extend) or No (keep at 3 days).

If Yes, also specify the number of days you believe is appropriate (e.g., 5, 7, or other).

Purpose

Your feedback will guide whether we adjust the default voting window to better balance efficiency and inclusive decision-making.
